

# Final Project Declaration [Week 8]

Name: Serena Student

Section: Tuesday 10am

TA: Aaron Reed

Team: Solo

Project Type: Game

Game Name: "The River Woman's Mountain"

## Plan

For my final project, I will extend the Twine game "The Mountain" (made for Project 2 with my partner Emily Johnson). The original game linked together a series of short fictional memories centered around a meadow at the base of a tall, mystical mountain. My final project will be to add additional memories, drawing from some of my real childhood experiences visiting my grandparents in the country, and link them together into a more complete story. As the player explores the memories, they will be guided by a mysterious character I'm adding called the River Woman. I will be doing this project solo.
